

Spreader Bars for Forklift

Spreader Bar for Forklift - ELME has been proudly operating ever since 1974, becoming the biggest independent spreader manufacturer around the globe. They are a devoted maker of spreaders utilized for a lot of several applications like the trailers, handling of containers and swap bodies.

Engineering is done in-house by way of using all the most up-to-date FEM tools and CAD systems. The ELME business now has more than 125 personnel. Their spreaders are supplied to reach straddle carriers, lift trucks, gantry, quayside, ship-to-shore cranes and stackers all-around the world.

The product collection of ELME include a lot of spreaders intended for several container and trailer handling operations. Several of their inventory comprise: Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes as well as a huge array of additional parts.

Manufacturing and production of ELME products are developed in highly automated purpose built factory. In the year 2008, they made one thousand one hundred fifty spreaders by utilizing quality parts to be able to guarantee dependability and top standards. Major features of ELME comprise design simplicity, market feedback and ground-breaking modular spreader concept.
